- 8) Any lot legally created and recorded in the Register of Deeds Office prior to the adoption of this Ordinance, may be used as a building site, or for any purpose permitted by ordinance, even though such lot does not conform to the minimum frontage or area requirements of the district in which it is located, provided that all other requirements of the district can be met.

Activities typically associated with working farms should be expected in the AG-1 district, including noise, dust, odors, heavy equipment, use of chemicals, and long hours of operation. The AG-1 district also includes undeveloped natural resource and open space areas, and other uses permitted hereunder. The AG-1 district is intended to meet the criteria for Wisconsin Department of Agriculture, Trade and Consumer Protection certification as a farmland preservation zoning district under §91.38 Wis. The FPO district will generally be mapped over property to track and maintain residential development density policies associated with the Farmland Preservation Area within the County Comprehensive Plan. This will generally occur when a rezoning to accommodate a residential use is approved on contiguous lands in common ownership, in accordance with residential density policies applicable to the planned Farmland Preservation Area. The FPO district may be applied in other circumstances, such as to indicate areas from which development rights have been retired or limited by acquisition of conservation easement, purchase of development rights, or similar program. In all cases where the FPO district is used, the underlying zoning district shall be and remain an agricultural zoning district, but permitted and special exception uses shall be limited to those allowed in the FPO district per Section 16.14
- 2) Lot area and other dimensional standards shall be per the underlying zoning district.
- 3) The following uses shall be permitted in the Farmland Preservation Overlay District:

 - B) The boundaries of each FPO district shall follow lot lines, tax parcel lines, or some combination wherever possible. A description of lands within each FPO district shall be of sufficient detail that it may be accurately mapped and that the total acreage to be rezoned to FPO may be determined. The Zoning Administrator may require a plat of survey or certified survey map.
 - C) Land in this FPO district may be sold and exchanged between owners of adjoining lands if the minimum lot size in the underlying zoning district is not violated.
 - D) Land in the FPO district may not be used to achieve the acreage necessary to build a dwelling under the applicable residential density policies of the County Comprehensive Plan.
 - E) Where the FPO district is required in conjunction with the rezoning for residential purposes per the density policies referenced in Section 16.14(1), there shall not be a separate application fee associated with the PO rezoning.

The order of abatement shall require the owner or occupant of such premises, or both, to take reasonable steps within a reasonable period of time to abate and remove the Zoning Violation. Whenever an investigation hereunder involves a search of private premises and the owner or other person having equal rights to the use and occupancy thereof does not consent thereto, and absent any exception to the warrant requirement, that officer shall apply to the Circuit Court of Marquette County for a special inspection warrant pursuant to Section 66.122, Wisconsin Statutes.
